Message from the Executive Director

40 YEARS WORKING IN EL SALVADOR AND 11 HONDURAS

Vision:
To transform society, SHARE increases the capacity of organized communities and their partners through our model of mutual accompaniment.

Mission:
SHARE Strengthens solidarity with and among the Salvadoran people in El Salvador and the United States in the struggle for economic sustainability, justice and human and civil rights

SHARE PROGRAMS:
- Community Development
- Advocacy
- Grassroots

Dear Sisters and Brothers,

2020 marked the 40th anniversary of the martyrdom of San Romero and Ita, Maura, Dorothy and Jean.

Due to Covid 19 global pandemic, SHARE was compelled to cancel our delegations to El Salvador, including the December 2nd delegation, which normally includes more than 120 delegates. But we remained undaunted. Instead of delegations, SHARE, in partnership with the Leadership Conference of Women Religious, (LCWR), organized 40 events across the US, El Salvador, England and Rome!

Working with our many partners, we mastered zoom and held beautiful and creative virtual events with music, dance, poetry and countless testimonies remembering our beloved sisters. We are deeply grateful to all who helped organize the 40th anniversary celebrations of our sisters. Thank you!

As we remember our beloved sisters, during 2020 we brought to life the dreams of the communities to whom they dedicated their lives. In collaboration with the Sisters of Charity Halifax Canada, and the women of CCR, SHARE completed a water project in Chalatenango that benefits more than 700 families. SHARE continues to be part of the struggle to make water a human right, supporting El Foro del Agua to advance legislation and a national Water Law.

From the window at our office in Berkeley we experience the ashes of the severe fires sweeping California, a direct result of climate change and the severe drought, heat, and wind storms. At the same time communities we work with in El Salvador and Honduras are also suffering from climate change and its consequences, including the Amanda Storm and Hurricanes Eta and Iota that have devastated so many and pushed so many families from their homes.

In Honduras, our sister communities and institutional partners including the Mercy Sisters, the School Sisters of Notre Dame and the Jesuit Radio Progreso, reported that the hurricanes came on top of the Covid-19 pandemic and the repression suffered under the corrupt government of Juan Orlando Hernandez. The multiple crises have dislocated thousands of people, forcing them to undertake the perilous trek to the US.

Throughout 2020, SHARE was blessed with thousands of donations in response to the Covid-19 pandemic in El Salvador and Honduras, allowing us to provide PPE to healthcare providers and emergency support. In the same way we were able to channel emergency aid to communities in El Salvador, Honduras and Nicaragua affected by Amanda, Eta and Iota.

This was a challenging year, but we endured with your faithful support.

Words cannot adequately capture our profound gratitude for each and every one of you who generously contributed. Your love and solidarity make all the difference.

En solidaridad,
Locke Schultz Jaeger, Board President
Jose Artiga, Executive Director Isabel Hernandez,
El Salvador Director
MAIN
ACHIEVEMENTS
OF 2020

1. Successfully respond to the emergencies in El Salvador and Honduras: hurricane ETA and Iota

2. Provide PPE to communities in El Salvador including first response personnel

3. Advance water project for communities in Chalatenango including building a coalition to contribute the over $200,000 cost of the project

4. Accompany partner organizations in Honduras to support communities in defending human right and responding to emergencies
We begin 2021 by giving thanks because we have managed to survive and accompany the most vulnerable families affected by storms Amanda and IOTA, and by the COVID-19 pandemic.

2020 has been a difficult year, since March we have been facing the COVID-19 pandemic worldwide.

In our country, according to official data, we have had more than 1,400 deaths and more than 50,000 infected people, but according to unofficial data from the municipalities, more than 7,000 people have been buried in municipal cemeteries with the COVID protocol.

In addition to the health effects, the economic effects are large, more than 100,000 jobs have been lost, poverty, hunger and unemployment have increased.

In the middle of the pandemic, the country was severely affected by the storms, Amanda, Cristobal, ETA and IOTA, leaving hundreds of families affected with serious damage to their homes, loss of property and also psychological effects.

It is important to note that both the pandemic and the storms and hurricanes were hard tests that have left human and material losses, but they did not demobilize us, on the contrary, new forms and methods of communication with members and donors were created, which allowed us to provide an immediate response to the needs generated by emergencies.

A special thanks to all the institutions and people who have accompanied the affected communities in solidarity, either with their prayers, with solidarity and financial support that has allowed us to carry out our contribution in a timely manner to alleviate some of the needs of the affected families.

We hope that you will continue to accompany us in this fight in favor of the poorest families.

In the regions of Chalatenango, south of La Libertad and north of San Salvador through our partners: Cripdes Sur, UCRES and CCR.

We continued to support 20 young people with university scholarships, of which three graduated.

The young people were trained in community organization, leadership, sexual and reproductive education and a gender approach. 20 young people were supported with scholarships for high school studies, of which five graduated and one in technical studies.

Leadership and youth participation has been strengthened in community organization and in advocacy spaces for projects for young people.

With the covid-19 pandemic, there were difficulties for young people to receive their classes since most do not have internet access, the classes were online.
During the COVID-19 pandemic, a virtual campaign on violence prevention was promoted, since due to confinement there was an increase in cases of domestic violence, where women were the most affected.
Working with women

At least 300 women received support with seeds and seedlings, they were also trained in the management of family gardens, in the areas of land preparation, preparation of fertilizers and organic pesticides, such as planting vegetables, in pest control, among others.

CCR followed up on the training school on women’s rights, processing of medicinal plants and the rescue of ancestral culture, where 30 women leaders were trained.

In the framework of the COVID-19 pandemic, a virtual campaign on violence prevention was promoted, since due to confinement there was an increase in cases of domestic violence, where women were the most affected.

20 young people were trained on the management of organic gardens and were supported with inputs for the implementation of their garden.

The creation of small economic initiatives was encouraged for a group of women from Comasagua, La Libertad, with training and a seed fund for an enterprise to manufacture and commercialize jellies and pickles.
Human Rights and Historical Memory

We have supported the attorneys of Tutela Legal, to follow up on the case of the judicial process against the murderers of the Mozote massacre in Morazán and the massacre in the Sumpul river in Chalatenango. This year, the judge in the Mozote case ordered the government to open the military archives to continue the investigations, but the president refused to open them; Likewise, the case of the massacre carried out by the army in Rio Sumpul has been followed up, opening the investigation of the case and they have already begun the identification of some graves where they have found bones of some people who were murdered.

Bringing clean water to the communities of Chalatenango

The drinking water system was completed for three communities in the municipality of Chalatenango, this project has benefited 400 families from Las Minas, Los Alas and Las Lomas, the project consisted of the installation of pipes, the construction of two tanks, five tanquillas and the office for administration of the system,

CCR accompanied the entire organization process for the execution of the project, the formation of the water administration board and training on the administrative management of the system.

The execution of the second potable water project began in the Gramales community of the municipality of La Palma, where 42 families will benefit.
Strengthening of Relationships of Solidarity Between the Peoples

We want to make a special mention to the Sister relationships that despite the pandemic were in communication with their sister communities, supporting them and sending messages of hope, their contribution to youth development projects (study scholarships) was also very important, empowering women and supporting the strengthening of community organization.

This is the sixth year of the campaign planting trees to improve the environment and life of cooperative families, this year four thousand fruit and timber trees were planted in CONFRAS cooperatives with the support of the Tree Planting Foundation. This project has allowed the planting of more than 50,000 trees some families are already harvesting and marketing the products and at the same time it has brought environmental education to families to children in more than 20 schools.

Attention to Emergencies in El Salvador and Honduras

El Salvador

Storms Amanda and Cristobal in May 2020

- 258 shelters with more than nine thousand people housed.
- 29,968 families affected.
- More than three thousand families lost their homes.
- Massive damage to roads, schools, bridges and gullies.
- Thousands of hectares of crops flooded.
Honduras Emergencies

Huracanes

Huracanes Eta and Iota en Honduras The ETA and IOTA hurricanes that hit Honduras in November and December 2020 and with special damage in the northwestern area, especially in the Sula Valley, generated millions in losses in agriculture, road and electrical infrastructure, loss of homes and human lives.

In the Sula Valley, a diagnosis was made in 30 communities and 2,507 affected families were registered, 347 homes destroyed, and 28,276 lost acres of crops were quantified, which is equivalent to 13 million dollars. In the Aguán sector, corn, beans, cassava have been lost, especially in the San Pedro sector, the most affected by the hurricanes in that area, where 640 families with food needs, 700 damaged homes, among others. damage. In Intibucá, food insecurity is chronic and has worsened with the current crisis since it is one of the territories most neglected by the State and where the majority of the population is of the Lenca indigenous ethnic group.

We work together with the Reflection, Research and Communication Team (ERIC-SJ), San Isidro Labrador Parish, San Alonso Rodríguez Foundation, Coordinator of Popular Organizations of Aguán (COPA), Council of Indigenous Organizations and Peoples of Honduras (COPINH), the socio-educational program Paso a Paso, the Sisters of Mercy and the Sisters of Notre Dame, in support of the evacuation of families, care in shelters, promotion and education to avoid COVID infections, preparation of masks, feeding the affected families, etc.

In Eric and Radio Progress the alert state was activated since the beginning of the rains. The radio had special programming and an extra effort in coverage on social networks to inform what was happening in the neighborhoods and communities of the northwestern area.
Covid 19- Pandemic

We support health personnel in El Salvador with Personal Protective Equipment.

The mortality rate for doctors and health personnel in El Salvador was one of the highest on record. The government did not have the ability to allocate resources to support frontline personnel.

With the partner organizations: PROVIDA and the Salvador Allende Movement, different activities were developed:

Mechanisms were created so that the population had access to health care and information to prevent protection from the virus.

An informative and psychological support campaign was developed for the population.

PROVIDA assigned a team of doctors to attend by tele-consultation and face-to-face visits if they were required.

-The campaign included the delivery of 3 kits according to needs:

-Cleaning kit, which included gel, masks, etc.

-Food kit, which were delivered to people in isolation and with very low economic resources

-Medication kit and laboratory tests if required
More than 600 families were supported with food packages, cleaning kits, kits for the prevention of Covid 19.

The aid was delivered to communities in the south of La Libertad, San Vicente, Tacuba and Nejapa through the partners CRIPDES and PROVIDA.
Family members of health personnel who died from COVID, together with social organizations, request the government to recognize the contribution of front-line personnel in the fight against the pandemic.
Human Rights in Honduras

8 environmental defenders imprisoned for two years.

We have accompanied the campaign for the freedom of the Guapinol prisoners in their fight for the defense of the community’s resources and the defense of the environment.

A delegation from the United States visited the prisoners to show solidarity with their struggle and now they are accompanying their families denouncing the lack of democracy in Honduras.

So they express it “Our names are Porfirio Sorto Cedillo, José Avelino Cedillo, Orbin Naún Hernández, Kevin Alejandro Romero, Arnold Javier Aleman, Ever Alexander Cedillo, Daniel Márquez & Jeremías Martínez Díaz”.

“Together we have defended the rivers that originate in the Carlos Escaleras National Park in Honduras. We protested against the mining company Inversiones Los Pinares whose project in a protected area threatens water sources for our communities.

Falsely Accused

Actions done Humanitarian assistance, legal advice and support actions have been developed in the protection and defense of the human rights of the defenders of natural assets, which are detailed below:

• Support advocacy actions and criminal legal representation of defenders in arbitrary detention as a state-business retaliation for their work in defense of common and public property and having exercised the right to peaceful protest.

• Support the families of those deprived of liberty and defenders seriously threatened and at risk due to the legitimate exercise of social protest and defense of natural and public assets.

• Support people who are seriously threatened and at low risk due to their defense of human rights to water and a healthy environment in the municipality of Tocoa.
Other Activities to support Honduras:

The Eric Foundation in Honduras, along with other local organizations, gave direct assistance to the communities affected by hurricanes ETA & IOTA, traveling long distances and inaccessible roads. Through a campaign with friends from Honduras, we collected funds for the purchase of a vehicle to facilitate these activities.

We appreciate the donations made to Honduras for the purchase of a vehicle for the Eric Foundation.
